# A biometric verification handheld for on-the-go

A lightweight, biometric handheld for on-the-go identity verification.

Voter Verification

Citizen Identity

## Verification from the palm of your hand

Chameleon 5L is a mobile biometric device ideal for large-scale identity verification, such as on an election day. It quickly captures biometric data and verifies citizens' identities on the spot. Chameleon 5L is fast, easy to operate, and delivers an excellent experience for operators and citizens.
